

# The Best Part of Me

By Room 1

2017

I think the best part of me is my eyes. I choose my eyes because they let me see the wonders of the world. I think my eyes are beautiful in many different and unique ways. I really like my eyes because they make me see beautiful people, animals, things, colours and teachers. I feel really lucky to have these beautiful eyes because some people are colour blind and just blind. My eyes are a really pretty blue/greenie colour. My eyelashes, my eyelashes are long and luscious. I have been told millions and millions of times that I have beautiful eyes and eyelashes. I have also been told that I will never have to wear much make up on my eyes.

By Holly

The best part of me is my arms and legs.

My arms and legs are the best part of me because without them I would not be able to walk, run, climb, jump and lift things ups.

By Ben

The best part of me are my eyes because I can see my family and friends. My eyes can see my TYs that I adore. I think my facial expression is different and that's what makes me myself.

By Amelia

My legs, I love my legs because they help me run and running is my favourite thing to do. Without my legs my body wouldn't be able to stand up state. I like using my legs for athletics and football and other sports. That's why I love my legs.

By Liam

My eyes: my eyes are the best part of me because can see with it and if I want to watch a movie my eyes will let me watch a movie my eyes will let me watch it.

The special thing about my eyes is that my aunty has the same colour as me!

And this is my favourite body part since I've explained I guess I've done.

By Arushan

My hands are useful! My hands  
are fun!  
They're helping me write this right  
now!  
Once my eyes spot food, they grab  
utensils and I eat like crazy  
because of my gorgeous hands!  
They really come in handy at all  
times.  
They are so big so I can hold more!  
I can play basketball and tennis  
and lots more with these bad boys!  
They're super awesome and  
perfect! ☺

By Tía

### My Knees

They help me with walking and running. I'm surprised they're like new when I have had a lot of injuries and not hurt them bad so they only get sores. They probably will be in biggest trouble with my knees, probably be really sore when pigs fly and I will probably be dead. So I will have a great life to come with my knees. I love my knees.

By Isabel

I like my mouth because it helps me eat. If I didn't have my mouth I would have to have tubes to feed me. I also like my mouth because it helps me talk. My mouth also helps me breathe, if I had to stop breathing through my nose I could breathe through my mouth.

By Jeevit

## My Arms

The best part of me are my arms. My arm help me play my two favourite sports and many others. Without my arms I would not be able to hold things when there are too many things in my hands. If I did not have arms I would not have hands and without hands I would not be here writing this. My arms also help me reach things I can't reach. This is why I always have loved my arms and always will love my arms.

By Louis

The best part of me is my mouth so I can talk and eat if I didn't have a mouth I could die because I couldn't eat anything and I couldn't know how good pizza is also I wouldn't be able to talk which means I may not even be writing this right now I just love my mouth and if I could only have one body part it would be my mouth plus I could be totally embarrassed if we had an assembly and I wouldn't be able to talk.

By Josh

## My Strong Muscles

Muscles are strong  
muscles are tough  
Muscles are something  
that can give you a buff.  
If we didn't have muscles  
we would not be able to  
move, walk, grab and all  
that other stuff.  
We would have just been  
a slop of slime.

By Ryan

My hair is unique and quite a show.  
It will shine gold in the sea.  
It's silky and soft, like shimmering  
gold.

By Cloe

I love my eyes because they are blue and I can see with them also see my beautiful teacher, to see delicious food, to see where I am going. Lastly because my blue eyes remind me of my brother's and dad's blue eyes.

By Chloe

I like my eyes because they are blue like the sky and my eyes are one of the main parts of me without them I wouldn't have written this. With my eyes I can look left, right, up and down and cross eyes. I love my eyes so so much. I am so happy.

The End.

By Jack

## My Mouth

I like my mouth because I can talk and taste my favourite food cotton candy and I can smile and laugh and talk to my family and friends so I won't get lonely, and I can eat stuff so I won't starve.

By Jude

The best part of me are my legs so I can run all the time and I can kick footballs and soccer balls and more also with my legs I mostly use them for a lot of things like jumping and walking and that is why my legs are the best of me.

By John

*My mouth is so small, mouth is ugly. Even though it's so ugly I still love my amazing mouth! My mouth shouts, whispers and talks. Without my words I wouldn't have any friends. My favourite word about my mouth is that it's terrific!!!!*

*By Agok*

*My hair keeps me away from  
burns in the sea.*

*Mine shimmers with glee with a  
lot of streams of gold. When I  
take out my plat it feels like  
heaven to me.*

*By Jorja*

The best part of me is my chest because I love to sing and my chest holds my vocal chords. And this is one of the best reasons I love my chest. And without my chest my heart would not be pumping.

By Laura

The best of part of me are my ears.  
I love my ears because they hear  
mean or nice things about me.  
Also I love my ear because that  
they hold my beautiful earrings.  
I like that they are attached to me.

By Talía

I like my hair. I get to play with it. My hair is the best because of its colour. I think my hair is unique in many different ways. I get to braid my hair. My hair is amazing, fantastic, long, pretty, beautiful, good, and a nice colour.

By Brita

I need my arms and my hand to play bowling, lifting things, play tag and writing. That's why it's the best part of me.

By Josh

I don't have a best part of me so I will say my whole body is the best part of me. My eyes because they help me see, ears to help me hear, nose to help me smell, my mouth to talk and eat, my hair so I can have beautiful hair styles, my neck so I can look down further, my back so I can walk, my arms so I can reach stuff, my hands so I can grab stuff, my legs so I can run/walk, my knees so I can bend down and last of all my feet so I can stand.

By Rylee 😊

I like my beautiful eyes so I can see amazing colours.

I like my brown eyes because they are the same colour as my mum and 3 sisters.

I like my eyes so I can see where I am walking.

I like my eyes so I can do funny things with my eyes.

By Maddie

*The best part of me is my nose. I once got made fun of because of my nose. A boy at the age of 7 said it was flat and that it looked like ski jump. I once felt ashamed of my nose. Then I learned how to not let the mean words effect me. I learned to love my nose. My nose is the same as my dad's and my cousin. It is a nose from the Lau family. I smell delicious foods with it and without scent I probably won't be able to taste all the different foods I like to eat. My nose helps me hold up my glasses. I feel good when I wear my glasses. It helps me see better. I am like a teacher version of Clark Kent and looking for ways to save children's lives through teaching.*

*By Ms. Lau*
